

`b_plus_tree_page`

```
graph BT; A[b_plus_tree_leaf_page] --> C[b_plus_tree_page]; B[b_plus_tree_internal_page] --> C;
```

The diagram illustrates a class hierarchy for B+ tree pages. At the top is a purple box labeled `b_plus_tree_page`. Below it are two light blue boxes: `b_plus_tree_leaf_page` on the left and `b_plus_tree_internal_page` on the right. Arrows point from each of these bottom boxes up to the top box, indicating that both leaf and internal pages inherit from the base `b_plus_tree_page` class.
